**Web** [www.hitechcomms.co.uk](http://www.hitechcomms.co.uk)  
**Degree** University of Durham  
B.Sc. (Hons) Computing and Electronics

Hello, and welcome to my CV. I'm an engineer. I design and fix software. I can also advise on Internet technology. You can read my separate technical CV [here](#).

If you need someone with a solid understanding of software, music, problem solving, teaching, and project co-ordination, I may be able to help you with your project or goal, so please get in touch!

I'm resourceful, independent, honest, compassionate, and productive.

My work - and pleasure - over the last 20 years has involved everything from record production to the design of real-time software tools. Some of my work:

**Web Design / Marketing / Social Networking**

[www.lemonrock.com](http://www.lemonrock.com) - an interactive "Web 2.0" UK gig guide, designed and managed by me, built on solid relational database principles, written in PHP and MySQL, with a dash of JavaScript and CSS. Currently the fastest growing UK gig guide. An iPhone App is on the way (March 2010)!

**CD Production**

Swell CD - a compilation of original rock and pop tracks that I co-ordinated: 19 tracks by 11 artists - [www.lemonrock.com/swell](http://www.lemonrock.com/swell)

**Songwriting**

Dundee Station, fun pop nuggets - [www.lemonrock.com/dundeestation](http://www.lemonrock.com/dundeestation)  
MacLaren Wall, melodic pop/rock - [www.lemonrock.com/maclarenwall](http://www.lemonrock.com/maclarenwall)

**Protocol Stack Design, Software Design, Engineering & Testing**

Various contracts, 1986 - 2006

**Lecturing - Electronics, Computing**

London FE Colleges, 1983 - 1986

**Electronics Design**

Broadcast TV equipment, 1981 - 1983

**Leisure**

Live music, songwriting, guitar, cooking, food, walking, films, real ale, wines.
